Federal Communications Commission
Washington, D.C. 20054

In the matter of: RULE MAKING 7747

Gentlemen:

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF THE SECRETARY

A.

I am in favor of this proposal to allow amateur radio circuits in the band 216-220 MHz as secondary and coordinated operations.

B.

Secondly, I propose that the proposed spectrum include space of .5 MHz for stations wishing to continue their experiments with propagation. These stations were dis-franchised through DOCKET 87-14 and its subsequent rulings. These stations had been using the frequencies between 220-222
